著者:Biddle, Steve/ Biddle, Megumi

出版者:Penguin USA

出版时间:1998-11

装帧:HRD

isbn:9780670882069

Discover the secrets of the art of origami. The magic of this unique and handsome book begins with the cover, which unfolds to reveal 48 brightly colored sheets of origami paper. Inside are reproductions of color woodblock prints by Japanese masters, which inspired the authors to create flowers, animals, kimonos, and much

more, all out of paper. The covered spiral binding allows the book to lie flat, making it easy to follow the clearly illustrated instructions for each of the 34 origami projects. There is also historical information about each print written by a curator of Japanese art from the Metropolitan Museum. With a package this unique, you can tell a book by its cover
