- Fifty-three remarkable sculptures, all shown in 200 full-color photos
- Exclusive interview with the award-winning artist At the intersection of geometry and art is the work of the distinguished artist Sebastian, the Mexican sculptor whose large-scale work challenges the might of skyscrapers. Stunning, bold, even swaggering, these intellectually rigorous works have been shown in Japan, Argentina, Chile, Mexico, and New York. A revealing interview with Sebastian offers a glimpse into the mind of the artist who celebrates the mind of mankind.
