Whether you specialize in drawing even cartooning and animation or prefer media such as acrylic, oil, pastel, or watercolor, a good knowledge of perspective is invaluable. It is the foundation of all great paintings and drawings, no matter what medium. "Perspective" shows you everything you need to know to make objects look three dimensional. Practice the methods of measuring and dividing areas proportionately; then learn how we perceive depth and distance, and how to render it correctly on paper or canvas. You will learn the basics and beyond, covering concepts like foreshortening; cast shadows; reflections; and even one-, two-, and three-point perspective. And once you have a good grasp of the basics, it's easy to graduate to more complex and irregular forms. This comprehensive guide will show you how
