isbn:9781558707603

Geared towards casual woodworkers and enthusiastic DIYers, this book opens the door to stylish, affordable furniture that anyone can build! The step-by-step instructions cover 20 projects-high-use household items such as futons, armoires,

lamps, dressers and nightstands. All of the designs: Are easy to build and take only one to three hours to complete; Use inexpensive, readily available materials; Produce sturdy furniture designed for the long haul It's perfect for those on a budget or just testing their woodworking skills - or both
