著者:W. E. Sparkes

出版者:Dover Pubns

出版时间:2007-2

装帧:Pap

isbn:9780486454511

It is nearly impossible to gauge the solidity and character of an object without shading. Featuring 87 illustrations, Sparkes' time-honored manual is a systematic study that begins with a series of experiments and exercises, and then moves to illuminating advice on how to add shade, light, and shadows to pyramids, cones, spheres, vases, and other items.
