isbn:9780060539931

Minimalism is not only about simplicity; it also deals with effects achieved through the use of various essential elements. Minimalism in interior design goes beyond plain white surfaces to incorporate aspects like textural subtlety and color accents. Minimalism in Color reminds us that the introduction of color accents within a world of whiteness recalls the fact that white light is the origin of the whole spectrum of colors. Origins of minimalism in the Modern Movement, and other styles are covered along with decorative criteria on color combinations to present harmonious spaces.
