By the sea, by the sea, by the beautiful sea...Who has never dreamt of living by the sea: the roar of the waves, the fresh salty breeze, the endless beach...Our journey through five continents takes you to the world's most idyllic seaside homes, from a rustic fisherman's house in Sweden to an artist's cottage located idyllically on the coast of Maine, an elegant apartment in Monte Carlo, a colorful beach hut on the Punta del Este in Uruguay and much, much more.
