著者:Lindstrand, Doug

出版者:Independent Pub Group

出版时间:2003-10

装帧:Pap

isbn:9781565231955

Compiled with artistic attention to detail and texture, this book offers photographs, sketches, and field notes useful to environmental artists who want to render deer with greater accuracy. All species of North American deer are profiled in a wide variety of

seasons and settings, ranging from the Florida Keys to the Alaskan frontier. Artists who work in mediums such as woodcarving, scrollsawing, painting, woodburning, sketching, and illustrating will learn how to capture deer in motion and at rest.
