If you look, really look, and see the lines and shapes that things are made of, you can draw anything. If you can write numbers and the letters A-Z, you can draw anything. The JOCOSAURUS, for example, is made up of the letters in its own name. Can you see how? Kim Gamble is one of Australia's best illustrators for children. With lots of

examples, step-by-step guidance, helpful tips, jokes, stories and flip pictures, he shows: How to draw animals, faces, bodies, people in action, buildings, machines...anything! How to give your pictures depth, using perspective. How to give them form, using light and shade. How to look, see, draw, explore and have fun!
