Museum Ethics considers the theoretical and practical elements of ethical behaviour in

relation to critical contemporary issues in museums. This discussion encompasses the procurement of artifacts, the rights of indigenous peoples, repatriation, the politics of display, the conservation of objects and the role of education, as well as the day-to-day management of a museum. All persons active in museum matters, whether custodian, curator, or trustee have an ethical obligation to the museum profession and the public. This volume will allow the professional and student to work towards a more responsible and responsive museum community.
