出版者:The Museum of Modern Art, New York

出版时间:2007-06-01

装帧:Hardcover

isbn:9780870707124

From ARTFORUM :

Intended as a definitive reference, the catalogue features essays by Lynne Cooke and art historians Benjamin H.D. Buchloh and John Rajchman. And because language is no less material for Serra than steel, it is fitting that the publication closes with an extensive interview conducted by McShine, allowing the artist's words their due weight.
