Dawn Porter needed to take action to meet some new, exciting and hopefully sexy people. A quick advert on a dating site was the start of an erotic journey which saw her dine with adult babies, get swept off to New York, fall madly in love with a Wall Street hunk, discover her appreciation for rubber uniforms, involve herself in a superbly sexual liaison with a couple, receive oral sex on a train platform and spend the evening with an Irish Leprechaun with a fixation for anal love eggs . . . In her explicit and candid Internet diaries, Porter takes us on a highlycharged sexual adventure through the minefield of dating in the big city. Witty, perceptive and very rude, Diaries of an Internet Lover is the best one night stand you'll ever have.
