出版者:Avon

出版时间:1998-08-01

装帧:Mass Market Paperback

isbn:9780380728725

I'm going to be totally honest. This is not the kind of book that can help you. It's not a "how-to," "when-to," a "what-to-expect" book. It's not even endorsed by anyone remotely connected to the medical profession. (Although a cousin of mine who sells carpeting to doctors' offices not only found it "insightful" and "informative," but felt that, "if properly vacuumed, it should last a lifetime.") "A fine endorsement," you say. "But if I have only one book to buy, shouldn't I go for the helpful one?" Let's compare:

Those "know-it-all" books tell you how to have a happy, healthy pregnancy.

My book mentions a squirrel.

Those books tell you how to care for a newborn child.

My book describes how tired I am.

Those books give you essential information you can use in a life-threatening emergency.

My book has some very amusing anecdotes about poop. So really, it's up to you. If you want to be prepared and well-informed, I understand. But if you enjoy seeing the words "pterodactyl" and "uterus" in the same book, you've come to the right place.

评论

读这书的感受就是很多孩子就不该出生的...长得拧巴脑子笨体质差各种劣质基因rolled into one了..太自私怯弱的人往往很容易成为父母...傻白甜口口声声说孩子是家庭纽带完善人生..但可以套牢配偶压榨现金养老储备等等吧..大概率孩子会沦落为吐槽父母皆祸害的那个群体吧。一切的不幸福都是不合理生育的结果吧..白左甚嚣尘上的当下..年轻人输出的娃最后也是资本的奴隶...
