isbn:9780896586291

Harley-Davidson fans and motorcycle buffs are eager for inside family stories and photos of this all-American company. As the 100th anniversary of Harley-Davidson is celebrated in 2003-2004, this interest is sure to continue, and this book is the most attractively priced keepsake on the market about the family and the company. In this book, this grand-daughter of one of the company founders shares personal Harley-Davidson history and lore and never-before seen photos of the Harley and Davidson families, the vaunted factory, and all those great motorcycles. It also includes photographs and reminiscences from Sarah and Mary Harley, granddaughters of William S. Harley.
