Alien fever is running high: the Alien movies and reissue of the Star Wars trilogy have

made outer space fascinating to a whole new generation of children. And who better to help budding artists master their drawings of the friendly folk from the final frontier than Lee Ames--creator of the phenomenally successful Draw 50 series?

An ideal tool for young artists or the parent or teacher seeking to help a child master their artistic skills, Draw 50 Aliens includes creatures from every walk of the galaxy: Ames gives instructions for drawing UFOs, Nebula Nomads, Milky Way Marauders, and every other type of extraterrestrial. And, in the tradition of the Draw 50 series, all of these characters are humorous, lovable, and very accessible for children.

With over two million copies in print, the Draw 50 series has successfully shown children how to create everything from a robin to a spaceship, Tyrannosaurus rex to John the Baptist. But with Draw 50 Aliens, Ames has--perhaps as never before--hit upon a deeply appealing subject, one that taps into children's sense of wonder and will keep them endlessly entertained and forever sketching away.
