出版时间:2001-09-22

装帧:Paperback

isbn:9780312240127

This work is designed to help the reader better understand the conduct of war by focusing on the "how" not the "why" of warfare. It examines a number of crucial dimensions of contemporary armed conflict such as: the strategies, operations, tactics, doctrines and weapons of conventional and low intensity war; military geography; the cultural underpinnings of strategies and tactics; and arms resupply, security assistance, and foreign intervention.
