A Pulitzer Prize-winning reporter's explosive account of the inner workings of the George W. Bush administration, the most secretive White House of modern times. This vivid, unfolding narrative is like no other book that has been written about the Bush presidency-or any that is likely to be written soon. At its core are the candid assessments of former U.S. Treasury Secretary Paul O'Neill, for two years the administration's top economic official, a principal of the National Security Council, and a tutor to the new President. He is the only member of Bush's innermost circle to leave and then to agree to speak frankly about what has really been happening inside the White House. O'Neill's account is supported by Suskind's interviews with many participants in the administration, by transcripts of meetings, and by voluminous documents that cover most areas of domestic and foreign policy. The result is a disclosure of breadth and depth unparalleled for an ongoing presidency. As readers are taken to the very epicenter of government, this news-making volume offers a definitive view of the characters and conduct of Bush and his closest advisers as they manage crucial domestic policies and global strategies at a time of life-and-death crises. Dick Cheney, Karl Rove, Donald Rumsfeld, Condoleezza Rice, Colin Powell, Christine Todd Whitman, and many of their aides are seen in an intimate, "unmanaged" way-as is Fed Chairman Alan Greenspan, O'Neill's close friend and ally. Along the way, the central conflicts of this administration's governance-between politics and policy, ideology and analysis-are starkly visible through the lens of recent events and the revelation of the often unseen intentions that underlie actions. In this book Suskind draws on unique access to present an astonishing account of a President so carefully managed in his public posture that he is unknown to most Americans. Now, he will be known.

## 作者介绍:

Ron Suskind is the author of the # 1 New York Times bestseller *The Price of Loyalty: George W. Bush, the White House, and the Education of Paul O'Neill*. He is also the author of the critically acclaimed *A Hope in the Unseen*. 几年前买回来时，就因为翻译的奇烂无比，读的我痛苦无比，读完也没留下什么印象。这次因为美国国债违约风险，又把它拿出来，硬着头皮看了几页。看到译者将“隔夜拆借利率”翻译成“另一天的利率”，我就知道，译者完全没有任何财经常识，就此彻底放弃，去找原版书来看吧
