isbn:9780131137875

For courses in Introduction to Criminal Justice and Issues in Criminal Justice. Unlike most other introductions to criminal justice--which cover the traditional topics from the perspective of how things are supposed to be, this text compares these ideals with the realities of criminal justice today and provides a critical interpretation of the role of race, ethnicity, and gender in criminal justice. Organized around a planned change approach, it provides a critical assessment of how well the system achieves its goals.
