著者:Meisler, Stanley

出版者:Transition Vendor

出版时间:1997-2

装帧:Pap

isbn:9780871136565

On the eve of the 50th anniversary of the United Nations, Meisler has written a compelling popular history, exploring the U.N.'s culture, its adventures in war, and its evolution into a key international player. From Roosevelt, Stalin, and Truman, who set the stage at the birth of the U.N., to Daniel Moynihan, who walked out of the General Assembly over the Third World's anti-Zion resolution, this is a story filled with action and heartbreak. Photos.
