Across the country, races for judgeships are becoming more and more politically contested. As a result, several states and cities are now considering judicial election reform. "Running for Judge" examines the increasingly contentious judicial elections over the last twenty-five years by providing a timely, insightful analysis of judicial elections. The book ties together the current state of the judicial elections literature, and presents new evidence on a wide range of important topics, including: the history of judicial elections; an understanding of the types of judicial elections; electoral competition during races; the increasing importance of campaign financing; voting in judicial elections; the role interest groups play in supporting candidates; party organizing in supposedly non-partisan elections; judicial accountability; media coverage; and judicial reform of elections.
