George W. Bush has been sticking it to the American people for over 6 years. And now it's your turn to stick it to him! Whether you want to make "Dub-ya" pay for the sins of his administration (starting a war, spying on Americans, ignoring Katrina, you name it!) or prevent him from committing new ones (your guess is as good as ours!), The George W. Bush Voodoo Kit gives you the tools to exert a little political power of your own-with voodoo! Included in this kit are a George W. Bush voodoo doll, spell pins, and a hilarious and effective book of spells and other information the corporate media won't tell you.
