In the twenty-first century, globalization poses major challenges to the key players in U.S. domestic politics - challenges similar to many that Americans have faced from abroad since the nation's founding. But it is only in recent decades that links have been drawn between the study of American political development and international relations; even now, emphasis falls primarily on how domestic politics affects the world arena. This book redresses the imbalance. Ten leading scholars explore how, over the past two centuries, the changing positions of the United States in the world economy and in the international political order have shaped U.S. political institutions and domestic politics. Ira Katznelson, Aristide R. Zolberg, and Robert O. Keohane demonstrate the central role that efforts to contend with foreign military and economic competition played in forming the major institutions of U.S. government from the framing of the Constitution through the Civil War. Martin Shefter, Theda Skocpol (writing with Ziad Munson, Andrew Karch, and Bayliss Camp), Ronald Rogowski, and Judith Goldstein show how the nation's political institutions were transformed by problems of war and trade the U.S. subsequently faced. Aaron L. Friedberg, Bartholomew H. Sparrow, and Peter A. Gourevitch conclude the volume by analyzing how international conflicts during and after the Cold War influenced governmental institutions and domestic politics in the United States over the past fifty years. "Shaped by War and Trade" sets the agenda for further exploration of a topic whose discussion is long overdue.

massive war and persistent ideas make state.

1, 2, 7, 9, 11章，第二章美国的孤立主义历史和如何介入世界政治，第九章美国的a nti-statism，感觉解释美国为什么不像欧洲有战争后遗症ratchet effect反而是rollback effect有点同义反复，被击中的点是UMT（universal military training）遭到反对的一个点是害怕种族混合导致种族隔离失效，作者只提了一下，但是还是挺震撼的；第十一章行政能力与民主，国家机制能力or民主的动员，二者的选择关系；好像涉及国关理论的篇幅就会长而啰嗦
