In Transforming Leadership, Burns illuminates the evolution of leadership structures, from the chieftains of tribal African societies, through Europe's absolute monarchies, to the blossoming of the Enlightenment's ideals of liberty and happiness during the American Revolution. Along the way he looks at key breakthroughs in leadership and the towering leaders who attempted to transform their worlds-Elizabeth I, Washington, Jefferson, Gandhi, Eleanor Roosevelt, Gorbachev, and others. Culminating in a bold and innovative plan to address the greatest global leadership challenge of the twenty-first century, the long-intractable problem of global poverty, Transforming Leadership will arouse discussion and controversy in classrooms and boardrooms throughout the country.
