The dramatic, tumultuous and often tragic human events that erupted in the Balkan Peninsula following the collapse of communism between 1989 and 1991 have

captured the Western world's attention throughout the 1990s. This book contains 50 colour, full-page maps and extensive explanatory text to explore this often complicated and war-torn history. The maps not only illustrate the area's physical geography, but also the political development and key moments in Balkans history, in a way that is immediate and easy to understand. Lecturers and students should find it an affordable useful reference tool, and general readers should enjoy it for its clarity and wealth of information.
