This 2-volume work examines the efforts of our diverse nation to secure civil rights for all its people including African-Americans, Native-Americans, Chicanos, women, Asian-Americans, workers, Gays and Lesbians, children, seniors, and numerous others. Covering the period from 1865 to the present, the set features over 700 entries comprised of historical and state surveys, biographies, entries on civil rights and other organizations, political and social movements, legislation and government programs, court cases, overall concepts, cultural and educational institutions, as well as film, literature, music and art.
