The time has come to open a lucid debate on the ways and means to make Europe better deliver democracy and sustainable growth. The "Report on the State of the European Union" examines the progress of European integration and focuses on economic aspects of the process. This second volume in the series, explores the four crises of contemporary Europe, those of growth, trust, inequalities and unity. The report is written in an accessible way and will be a useful resource for academics, students, policymakers, journalists and government advisors.
