"An unusually informative, as well as sensitive, series of essays with important ramifications for interdisciplinary theory and both social and literary thought. Caruth and her contributors work at the very intersection of contemporary life and scholarship."--Geoffrey Hartman, Yale University "These essays offer fresh approaches on the subject of trauma from both a psychoanalytic and contemporary theoretical point of view. The combination of theoretical articles about trauma with interviews about its ongoing effects is a particular strength--and a particularly appropriate approach when the topic itself is silence or testimony about trauma. The book will be of great interest to those in the psychoanalytic community interested in this kind of interdisciplinary work."--Alan Bass, Ph.D., Psychoanalyst

评论

Caruth开创的文学trauma研究以当时的临床医学为依据，主要有俩要点：1) 创伤如此剧痛，以致大脑无法对当时情景进行信息处理（也就是她后来所谓的unclaimed），事后可能被遗忘；2) 即便后来被忆起，受害者也无法用语言表述。所以C在创伤文学中寻找罅隙和空白，试图恢复被遗忘之物。
