Brilliant and Innovative, Jacques Lacan's work has had a tremendous influence on contemporary discourse. Lacan lies at the epicenter of contemporary discourses about otherness, subjectivity, sexual difference, the drives, the law, and enjoyment. Yet his seemingly impenetrable writing style has kept many readers from venturing beyond page one. This new translation of selected writings from his most famous work offers welcome access to nine of his most significant contributions to psychoanalytic theory and technique, spanning thirty years of his inimitable intellectual career. Beginning with the formation of the ego in the mirror stage, these texts study the varied roles of meaning, speech, writing, aggression, transference, and desire in our lives.
