出版者:Humana Press

出版时间:2007-8-22

装帧:Hardcover

isbn:9781588297730

This volume, new to "The Receptors" series, focuses on several areas, including the birth, maturation, and structure of Chemokines; Neutrophil, Dendritic, and Lymphocyte trafficking; and, Chemokine Receptors in diseases such as AIDs and lung cancer. In particular, the book contains cutting-edge information ranging from basic molecular and cellular mechanisms to physiological and pathological roles of chemokines.
