Experts from across disciplines join forces here to focus attention on current American culture and the devastating effects it is having on its children. From children developing surprising physical maturity and sexual awareness at younger and younger ages, to those estranged when television and computer screens replace family time, and those warped by national junk food/fast food habits bringing an explosion of obesity and diabetes among boys and girls, this book takes a harsh look at the results of American social norms. It highlights the damage being done by governmental policies, including inadequate parental leave, a minimum wage that is not a living wage, unregulated day care, and a public education system that delivers inferior education to poor children. A call to action, this is a work from some of the best known child experts nationwide. Every person who has or cares about a child - or the future of U.S. society - will find this of interest. Most experts writing about childhood address issues from their own particular perspective. This work draws together a team of top scholars from across fields. They connect the dots in engaging and clear essays. Altogether, they demonstrate that the problems facing children today come from an underlying crisis of adult values, and they suggest that individuals must join forces to turn back this crisis.
