isbn:9780393703924

This book is a lifesaver for family therapy students and beginning therapists. It gives them the means to sort out the many factors, past and present, that crowd the couple's bed - family-of-origin issues, previous relationships, burdensome secrets, children, in-laws, unresolved losses, financial worries - just to name a few. The authors' framework, built from the major influential theories of family and marital therapy, will enable therapists to work effectively and briefly, though not superficially, with couples.
