Saves you hours of painstaking paperwork, while providing optimum latitude in developing customized treatment plans for marital and couples problems. Following the same format as the bestselling *The Complete Psychotherapy Treatment Planner*, this invaluable sourcebook supplies all of the essential building blocks you need to create focused, formal treatment plans that satisfy all of the demands of HMOs, managed care companies, third-party payers, and state and federal review agencies. Organized around 31 major presenting problems, from jealousy, to midlife crisis, to parenting conflicts, to sexual abuse, it features: More than 1,000 well-crafted statements to choose from, describing behavioral manifestations, long- and short-term goals, and treatment options. A sample plan that can be emulated in writing plans that meet all requirements of third-party payers and accrediting agencies, including the JCAHO. A presenting problem list that includes all relevant DSM-IV categories. A quick-reference format allows you to locate treatment plan components by behavioral problem or DSM-IV diagnosis. Large workbook-style pages affording plenty of space to record your own customized goals, objectives, and interventions.
