出版时间:2004-8

装帧:Pap

isbn:9780805851755

This book offers a clear, readable overview of all the knowledge and skills those

training as marriage and family therapists and counselors need to pass final degree program, certification or licensing examinations. It is organized into three sections: Basic Clinical Knowledge and Skills, Common Client Problems, and Career Issues. Each chapter includes challenging study questions that enable readers to assess their own level of understanding--15 true/false questions at the outset checking on baseline knowledge, 30 multiple-choice questions interspersed through the text underlining crucial points, and 10 provocative discussion questions at the end facilitating synthesis. Each chapter also provides a glossary of key terms and, in addition to references, annotated suggestions for further reading and Web site exploration. Students and trainees will find Family Therapy Review: Preparing for Comprehensive and Licensing Examinations a resource to which they will go on referring long after it has helped them through their examinations; faculty and established professionals will find it a useful one-stop summary of current thinking about best practice.
