装帧:Pap

isbn:9781593853273

This clinical manual offers essential tools and guidance for therapists of any orientation faced with the complex challenges of assessing and treating a suicidal patient. In a large, ready-to-photocopy format, the book provides step-by-step

instructions and reproducible forms for evaluating suicidal risk, developing a suicide-specific outpatient treatment plan, and tracking clinical progress and outcomes using documentation that can help to reduce the risk of malpractice liability. In addition to providing a flexible structure for assessment and intervention, The Collaborative Assessment and Management of Suicidality (CAMS) approach is designed to strengthen the therapeutic alliance and increase patient motivation. Highly readable and user-friendly, the volume builds on 15 years of empirically oriented clinical research.
