"The book is clearly written and provides a fine introduction to the issues attendant on counseling survivors of sexual abuse. It is up-to-date and comprehensive without being plodding and avoids the cant that can bedevil the topic" -CONTEMPORARY PSYCHOLOGY "Counseling Survivors of Childhood Sexual Abuse, Third Edition, is an accessible, practical guide to helping these victims through the healing process. This book will be a useful tool for professionals dealing with the counseling and/or treatment of sexually abused clients" -SirReadaLot.org The experience of childhood sexual abuse is a trauma which continues to have an impact on survivors throughout their lives. The pervasive and long-term effects that stem from sexual abuse make it vital that counselors become adept at addressing the unique and complex needs of survivors. In this Third Edition of Counseling Survivors of Childhood Sexual Abuse, Claire Burke Draucker and Donna S. Martsof identify the significant healing processes which are essential to achieve recovery. These include disclosing the abuse; reinterpreting it from an adult perspective; addressing issues related to the context of the abuse; and making desired life changes. Each of these processes is discussed in conjunction with the most effective counseling interventions to facilitate resolution. Carefully chosen case examples demonstrate the appropriate use interventions in practice. The Third Edition includes a wealth of new material covering memory retrieval, outcome research, multicultural counseling, emerging therapeutic approaches, and neuroscience and counseling. Dynamics and difficulties in the therapeutic relationship are also discussed in great depth. The author's web site can be found at <http://www.kent.edu/nursing/Faculty/Bios/draucker.cfm>.
