isbn:9780781810067

An estimated 8 million people speak Armenian world-wide, split between the 3 million people in the Republic of Armenia who speak Eastern Armenian, and the diaspora communities who primarily speak Western Armenian. A 3,000-word bilingual dictionary offers essential vocabulary, while the 32-chapter phrasebook helps travellers deal with topics such as shopping, travel, and healthcare. This book also includes a concise grammar and pronunciation section.
