Math On File is a three-volume set designed to supplement the classroom instruction of mathematics in accordance with the National Council of Teachers of Mathematics (NCTM) standards. This comprehensive collection of approximately 150 engaging problem sets ranges from simple to challenging and emphasizes the systematic development of mathematical skills. All exercises are reproducible and easy to distribute for classroom use or take-home practice. Each exercise contains an introduction as well as text and diagrams that fully articulate the ideas and concepts being studied. Essential Resources for Teachers and Students An essential addition to any high school or college mathematics classroom, Math On File provides fast access to high quality materials that teachers can assign for additional practice, provide as supplements to their lesson plans, or use as a basis for testing.
