"Engineering Drawing and Design" provides students with current, state of the art

technical approaches to creating and providing technical drawings. This edition offers increasing coverage of digital preparation, and the storage and retrieval of technical drawings. Students and instructors will have computer access to problems and drawings in the student text, related workbook and a Student Tutorial CD-ROM. The support materials include the Instructors Wraparound Edition (IWE), Workbook Solutions Manual, Instructor Management System and the Instructor Productivity Center CD-ROM.
