isbn:9780131464797

Prepared by John H. Nelson and Kenneth C. Kemp, both of The University of Nevada. This manual contains 43 finely tuned experiments chosen to introduce students to basic lab techniques and to illustrate core chemical principles. Pre-lab questions and post-lab questions have been revised and include detachable report sheets. Safety and disposal information has been expanded and includes waste management information. This new edition has been revised to correlate more tightly with the text.
