出版时间:2005-6

装帧:HRD

isbn:9780131188624

For freshman-junior level Civil Engineering courses in surveying/geomatics, including photogrammetry and hydrographic surveying. This text presents a clear discussion of surveying principles, and applications for mapping and engineering surveys. It has a

good selection of problems that illuminate and reinforce concepts, as well as providing up-to-date information on the latest technological innovations. Real-world emphasis is key to the continued success of this text and the success a student has in understanding surveying concepts. So real world is this text that graduates often arrive for their first day of work carrying it. Suitable for construction, civil technology, civil engineering programs, and general surveying programs. INSTRUCTOR RESOURCES: Instructor Manual with Powerpoint (Contains over 300 Slides)
