

Regulators of G Protein Signalling

[Regulators of G Protein Signalling_ 下载链接1_](#)

著者:Siderovski, David 编

出版者:Academic Pr

出版时间:2004-9

装帧:HRD

isbn:9780121827946

This volume is an in-depth treatment of G-Protein Signaling, Part A, and will cover general methods of analysis of RGS protein analysis, including expression and post-translational modification, assays of GAP activity and allosteric control, electrophysiological methods and RGS-insensitive Ga subunits, mouse models of RGS protein action, methods of RGS protein inhibition, and G-protein regulators of model organisms. The table of contents include Expression and post-translational modification, Assays of GAP activity and allosteric control, Electrophysiological methods and RGS, Insensitive Ga subunits, Mouse Models of RGS protein action, Methods of RGS protein inhibition, and G-protein regulators of model organisms.
