

# Methods in Nonlinear Analysis

[Methods in Nonlinear Analysis\\_ 下载链接1](#)

著者:Kung-Ching Chang

出版者:Springer

出版时间:2005-8-26

装帧:Hardcover

isbn:9783540241331

This book offers a systematic presentation of up-to-date material scattered throughout the literature from the methodology point of view. It reviews the basic theories and methods, with many interesting problems in partial and ordinary differential equations, differential geometry and mathematical physics as applications, and provides the necessary preparation for almost all important aspects in contemporary studies. All methods are illustrated by carefully chosen examples from mechanics, physics, engineering and geometry.
