Beautiful books with five fantastic action pop-ups! Its time to play, and where better than in the park! There are so many things for Rabbit to do: playing in the sandpit, on the swing, rocking on the bouncy horse, and sailing her boat on the lake. After all that playing, it must be time for a delicious ice-lolly! Little readers will love following their familiar routines with these amazing pop-ups which animate the page and make the pictures move. Perfect for talking to toddlers about their day-to-day experiences.
