

# Reviews in Fluorescence 2006

[Reviews in Fluorescence 2006 下载链接1](#)

著者:Geddes, Chris D. (EDT)/ Lakowicz, Joseph R. (EDT)

出版者:Springer Verlag

出版时间:2006-2

装帧:HRD

isbn:9780387293424

This third volume in the serial "Reviews in Fluorescence" is a collection of up to 10 invited reviews on current trends and emerging hot topics in fluorescence. This new annual series complements the other fluorescence titles published by Springer, while feeding the requirement from the fluorescence community for annual informative updates and developments.
