isbn:9780080447384

Volume 45 of "Advances in Enzyme Regulation" is the proceedings of the 45th International Synthesis in Normal and Neoplastic Tissues held at Indiana University School of Medicine Indianapolis, Indiana September 27-28, 2004. Volume 45 concentrates on subjects which have reached the stage of productive summarization and critical evaluation in the light of extensive new results. This book also lives up to its goal of advancing a few steps ahead of the general front of mammalian enzymic and metabolic regulation studies. It is a comprehensive lab resource and teaching companion. It also includes international contributors from academia and industry.
