著者:Geddes, Chris D. (EDT)/ Lakowicz, Joseph R. (EDT)

出版者:Springer

出版时间:2006-02-07

装帧:Hardcover

isbn:9780387295718

This is an essential reference for any laboratory working in the analytical fluorescence glucose sensing field. The increasing importance of these techniques is typified in one emerging area by developing non-invasive and continuous approaches for physiological glucose monitoring. This volume incorporates analytical fluorescence-based glucose sensing reviews, specialized enough to be attractive to professional researchers, yet appealing to a wider audience of scientists in related disciplines of fluorescence.
