# Basic Training in Mathematics

[Basic Training in Mathematics_下载链接1_](#)

著者:R. Shankar

出版者:Springer

出版时间:1995-6-30

装帧:Hardcover

isbn:9780306450358

Based on course material used by the author at Yale University, this practical text addresses the widening gap found between the mathematics required for upper-level courses in the physical sciences and the knowledge of incoming students. This superb book offers students an excellent opportunity to strengthen their mathematical skills by solving various problems in differential calculus. By covering material in its simplest form, students can look forward to a smooth entry into any course in the physical sciences.
