In *Becoming Human*, noted anthropologist and renaissance man Ian Tattersall explores what makes us uniquely human, the qualities that set us apart from our ancestors, and the significance of our knowledge. A worldwide tour of discovery, Tattersall takes the reader from 30,000-year-old cave paintings in France and anthropological digs in Africa, to examining human behavior in a New York restaurant. And by offering wisdom gleaned from fossil remains, primate behavior, prehistoric art, and archaeology, Tattersall presents a stunning picture of where humankind evolved, how Darwin's theories have changed, and what we reliably know about modern-day human's capacity for love, language, and thought. Widely praised in the media, and an Amazon.com Top-10 bestseller, *Becoming Human* is an amazing trip into the past and into the future.
