出版者:CRC Pr I Llc

出版时间:1995-11

装帧:HRD

isbn:9780849325038

Let the "Author's Handbook of Styles for Life Science Journals" save you time and trouble by providing a one-stop resource for all your manuscript writing requirements. No more plowing through your journal collection or wandering the library stacks to get those elusive journal pages containing instructions to authors. This unique book contains all the information you need to know: whether the journal will consider your manuscript; the journal's submission address; how to construct the abstract, illustrations, tables, and references; and specific information on copyright, multiple authorship, statistical analysis, and page charges. "The Author's Handbook of Styles for Life Science Journals" gives all this information for 440 of the most important English-language, life science journals. Titles were selected from the 'Journal Rankings by Times Cited' list in the Science Citation Index Journal Citation Report. Because this report is heavily weighted toward the medical sciences, other life science journals are incorporated into the book based on general level of prestige and reputation. In addition, some new titles that promise to be important to their fields, like "Nature Medicine" and "Emerging Infectious Diseases" are also included. Organized by journal title, the handbook's entries are uniformly arranged to allow direct comparison between journals. Information is presented in an easy-to-use, easy-to-read format with clear and explicitly stated instructions. "The Author's Handbook of Styles for Life Science Journals" gives authors in the life sciences all the information necessary for the correct and complete compilation of a manuscript for submission to their journal of choice.
