出版者:Routledge

出版时间:1992-6

装帧:Pap

isbn:9780415071659

For more than ten years, the Science for Conservators series has been the key basic texts for conservators throughout the world. Scientific concepts are basic to the conservation of artefacts of every type, yet many conservators have little or no scientific training. These introductory volumes provide non-scientists with the essential

theoretical background to their work.
